

# DIY Makeup Remover

**PREP TIME**  
5 minutes

**TOTAL TIME**  
5 minutes

## Ingredients

- 2 teaspoons fractionated coconut oil
- 1 teaspoon castile soap
- 2 tablespoons witch hazel
- 5 drops essential oil
- 5 drops vitamin E oil
- Cotton rounds
- 1 small mason jar with a lid (8 oz)

## Instructions

1. Place all the ingredients in the small mason jar and put the lid on tightly.
2. Shake the jar well to mix all the ingredients together.
3. Add the cotton rounds to the jar, pushing them down into the liquid. Replace lid and swish jar around upside down a few times until cotton rounds are thoroughly soaked in the liquid.

## Notes

Use one cotton round when you need to remove your makeup. If you don't have cotton rounds, you can make the same recipe and skip adding them. Put a small amount of the solution on a soft cloth to remove makeup.
